The Justice Advocates Registry will create a globally accessible central electronic database of the Advisory Committee of the Justice Advocates Registry (JCADR). The JCADR is an independent expert body. It is the key international cooperation forum for the development of judicial expertise and accountability in criminal proceedings. By the end of 2013 it had been established in its first session in The Hague, and as of February 2020 had received "about 31,500 new members from 160 countries". The membership of the JCADR is based on the principle of openness, full transparency, and accountability. Moreover, membership is an exceptional honour which is conferred only on special contributors to the protection of human rights. The JCADR provides advice on human rights in criminal proceedings to the Governments of its member states. The information derived from this participation in the committee is made accessible in the JCADR database. The registry is supported by the Fundação para a Ciência e a Tecnologia (FCT), through the project JCADR-IDEAC (PT2020-PTX-FEDER-FCOMP-015325), financed by the European Union through the Operational Program Competitiveness and Entrepreneurship (OPCE) and the European Regional Development Fund (ERDF), and by the Spanish Ministry of Economy, Industry and Competitiveness (MINECO), through the National Strategic R<sup>2</sup>2014<sup>2</sup>2013/ICEA2945<sup>2</sup>R project. The whole database is available in digital format for all JCADR members, for those who have to deal with criminal proceedings (eg. judges, advocates, prosecutors, prison officials, etc.) and in paper format for the Public Prosecutor from Portugal
